

Drop Down Tracker Field

This tracker field allows you to create a drop down list of values.

Put the values you want listed in a comma delimited list. Note: Do not leave spaces between the comma delimited items.

- Ex:Yes,No,Maybe **correct**
- Ex:Yes, No, Maybe **incorrect**

Tiki > 1.9.7: If you repeat a value, this value will be used as the default value and will be pre-populated in your tracker form. In the example below, there are four different values for the dropdown with "1-2" as the default value.

The screenshot shows a form titled "Edit tracker fields" with the following fields and values:

| | |
|--|-------------------------------------|
| Name: | Matches per week |
| Type: | drop down |
| <i>Dropdown options: list of items separated with commas. Default value is specified by having the value indicated twice consecutively</i> | |
| | 1-2,1-2,2-3,3-4,4 or more |
| Is column visible when listing tracker items? | <input checked="" type="checkbox"/> |
| Column links to edit/view item? | <input checked="" type="checkbox"/> |
| Column is searchable? | <input checked="" type="checkbox"/> |
| Field is public? (for use thru trackerlist plugin) | <input checked="" type="checkbox"/> |
| Field is hidden? | not hidden |
| Field is mandatory? | <input checked="" type="checkbox"/> |
| Order | 4 |
| <input type="button" value="Save"/> | |

If the field is optional, an empty value will be automatically added at the top of the values.

The options are automatically translated . See Interface translation (old) to know how to add a translation.

Note that each value must be unique. IE: it is not possible to do

0=false,1=true,1=almost true,0=almost false

Drop Down with other value

tiki >= 1.9.7

The field works as the Drop Down field, except that it proposes a text field to enter an alternative value

Radio Tracker Field

tiki >= 2.0

The field works like a drop down field but displays a radio choice.

If you repeat a value, this value will be used as the default value and will be pre-populated in your tracker form.

Subscription to email distribution list * Yes No

View inserted item

If the first value of the option is the string '
', each option display will be on a different line - otherwise they will be on the same line (tiki>=2.1)

Sample with default selected value and label

y=yes,y=yes,n=no

Multilingual

Each option in all the fields are translated before being displayed. See [Multilingual trackers](#).

Sample with default selected value and label in non-latin language

y=כן,y=כן,n=לא

Very long lists

For very long lists, you can use [Items List and Item Link Tracker Fields](#)

Alias

- [Drop Down / Radio Tracker Field](#)
