Gentoo Install

This is an [installation](#) guide.

Notes

- InstallGettingStarted
- InstallMultipleTikis
- The Tikiwiki Ebuild is in Gentoo CVS since 2003-12-30.
- 1.8.5 Ebuild has been available for sometime (2005-01-29)
- [Gentoo RFE 79078: Provide Masked Tikiwiki Ebuild of v1.9](#) (2005-01-22)

What is Gentoo?

GentooLinux: *We produce Gentoo Linux, a special flavor of Linux that can be automatically optimized and customized for just about any application or need. Extreme performance, configurability and a top-notch user and developer community are all hallmarks of the Gentoo experience. To learn more, click here.*
