

Module user_tasks

This module displays a list of the [tasks](#) in a user's task list along with a percentage completed. Tasks can be added, deleted, or marked finished. See the example below.

The screenshot shows a web interface for managing tasks. At the top, there is an input field and an 'add' button. Below this is a list of tasks, each with a checkbox and a progress percentage:

- Install Tikiwiki (%)
- Configure PHP (%)
- Configure MySQL (20%)
- Configure Apache (50%)
- Install OS on server (90%)

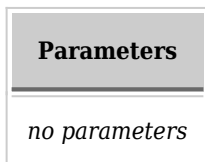

At the bottom of the list, there are two buttons: 'done' and 'del'.

Parameters

Lightweight interface to user tasks, enabling to view them concisely and do some manipulations

[Go to the source code](#)

Preferences required: feature_tasks

The screenshot shows a box with a header 'Parameters' and the text 'no parameters' below it.
