

# Plugin Fade

Use this [wiki plugin](#), introduced with [Tiki3](#), to create a link that shows/hides initially hidden content using a fade-in/fade-out effect. In [Tiki16](#) a new parameter bootstrap ('y' or 'n') was added, to generate bootstrap collapsible box instead of the previous html code.

## Parameters

Create a link that shows/hides initially hidden content  
*Introduced in Tiki 3. Required parameters are in **bold**.*  
[Go to the source code](#)  
*Preferences required:* wikiplugin\_fade

| Parameters        | Accepted Values   | Description                                                                                                  | Default           | Since |
|-------------------|-------------------|--------------------------------------------------------------------------------------------------------------|-------------------|-------|
| (body of plugin)  |                   | Content of the hideable zone (in Wiki syntax)                                                                |                   |       |
| <b>label</b>      | text              | Label for link that shows and hides the content when clicked                                                 | Unspecified label | 3.0   |
| <b>class</b>      | text              | Apply custom CSS class.                                                                                      |                   | 16.0  |
| <b>icon</b>       | (blank)<br>y<br>n | Arrow icon showing that content can be hidden or shown.                                                      |                   | 7.0   |
| <b>bootstrap</b>  | (blank)<br>y<br>n | Use Bootstrap collapsible box                                                                                | n                 | 16.0  |
| <b>hide_speed</b> |                   | Speed of animation in milliseconds when hiding content (200 is fast and 600 is slow. 1000 equals 1 second).  | 400               | 7.0   |
| <b>show_speed</b> |                   | Speed of animation in milliseconds when showing content (200 is fast and 600 is slow. 1000 equals 1 second). | 400               | 7.0   |

## Examples

### Basic

*This code:*

```
{FADE(label="Label to display on first display", bootstrap="y")} Wiki syntax containing the text to display. This text can be very long and can contain wiki syntax, images, etc. {FADE}
```

*Would produce:*

[Label to display on first display](#)   
Wiki syntax containing the text to display. This text can be very long and can contain wiki syntax, images, etc.

## With Icon and Speed Parameters Set

*This code:*

```
{FADE(label="Click me!" icon="y" show_speed="900" hide_speed="fast" bootstrap="y")} This is my favorite hat: {img  
attId=39} {FADE}
```

*Would produce on this site:*

Click me! ▼

This is my favorite hat:
