

Plugin Member Payment

New in [Tiki5](#)

Use this [wiki plugin](#) for users to make payments to extend the length of their membership to a group.

Requirements

- The [group](#) must have a membership expiry > 0 days
- [Payment](#) feature must be enabled and configured

Parameters

Receive payment from a member to extend membership to a group

Introduced in Tiki 5. Required parameters are in **bold**.

[Go to the source code](#)

Preferences required: `wikiplugin_memberpayment`, `payment_feature`

| Parameters | Accepted Values | Description | Default | Since |
|----------------------|-------------------|--|-------------------------------|-------|
| price | text | Price per period (USD). | | 5.0 |
| group | groupname | Name of the group for which the subscription should be added or extended. | | 5.0 |
| freeperiods | int | Give specified numbers of free periods, the first one could be prorated, in addition to those bought | 0 | 9.0 |
| howtitle | text | Add a title to the payment form when initially shown after clicking "Continue". Use %0 for the group name, %1 for the price, %2 for the currency, %4 for the number of days and %5 for the number of years. Supports wiki syntax | Membership to %0 for %1 (x%2) | 6.0 |
| inputtitle | text | Title of the initial input form. Use %0 for the group name, %1 for the price, %2 for the currency, %4 for the number of days and %5 for the number of years. Supports wiki syntax. | Membership to %0 for %1 (x%2) | 6.0 |
| periodslabel | text | Customize the label for the periods input. No effect if Hide Period is set to Yes (y). | Number of periods: | 9.1 |
| paytitle | text | Title of the payment form after the initial showing. Use %0 for the group name, %1 for the price, %2 for the currency, %4 for the number of days and %5 for the number of years. Supports wiki syntax | Membership to %0 for %1 (x%2) | 11.0 |
| currentuser | (blank) y n | Membership only for the current user | n | 6.0 |
| preventdoublerequest | (blank) y n | Prevent user from extended if there is already a pending request | n | 8.0 |

| | | | | |
|----------------|-------------------|--|---|------|
| returnurl | url | Page that payment service returns to after processing. | | 11.0 |
| hideperiod | (blank) y n | Do not allow user to set period - use default of 1. | n | 11.0 |
| inputtitleonly | (blank) y n | Select Yes (y) to just show the title of the input form and not the period and cost information. Input Title must be set as well. | n | 11.0 |
| howtitleonly | (blank) y n | Select Yes (y) to just show the title of the payment form. Initial Payment Form Title must be set as well. | n | 11.0 |
| paytitleonly | (blank) y n | Select Yes (y) to just show the title of the payment form that shows after the initial viewing. Subsequent Payment Form Title must be set as well. | n | 11.0 |

Example

This code:

```
{memberpayment group="association" price="50"}
```

Would produce:

Membership to association for 365 days at 50 USD

Users: (separated by |)

Periods:

Clicking on the continue button:

Takes the user to a screen where the payment can be made. Here's an example with Paypal used as the payment method (set in the [Payment](#) admin panel):

Manually completing payment information:

An admin will be able to fill in the payment information in case of a 'manual' payment. Here's an example of what the admin would see from an unpaid payment:
