Plugin USERINGROUP

Introduced in [Tiki15](#) and backported to Tiki 12.5 and Tiki14.2

Use this [wiki plugin](#) to check whether a specific userId is in a designated Group and display defined text for either case.

Table of contents

Parameters

checks if an individual user is in a particular Group and simply return a string set to either true or false
Introduced in Tiki 15. Required parameters are in **bold**.
[Go to the source code](#)
Preferences required: wikiplugin_useringroup

Parameters	Accepted Values	Description	Default	Since
testgroup	text	the Group that the userId check is made against		15.0
userId	text	the userId to be checked		15.0
falsetext	text	The text that is displayed if the test result is false	false	15.0
truetext	text	The text that is displayed if the test result is true	true	15.0

Example

This code:

    {useringroup userId="admin" testgroup="Registered" truetext="the user IS in the Group" falsetext="the user is NOT in the
    Group"}

Would produce on this site:

the user IS in the Group
