

Plugins tab

Related Topics

Overview

Use this tab to enable a specific [Wiki Plugin](#)

- [Wiki Plugin](#)
- [List of Wiki Plugins](#)
- [All Plugins](#)
- [Wiki](#)

To Access

From the [Editing and Plugins](#) page, click the **Plugins** tab.

Note

The plugins listed on this tab correspond to the PHP files in your `./lib/wiki_plugins/` directory. If you recently installed a new plugin, you may need to clear the Tiki cache.

| Option | Description | Default |
|--|---|------------|
| Automatically approve wiki-plugins on pages installed by profiles | Some wiki-plugins require admin approval before they are executable. If turned on, then all wiki-plugins that are on wiki pages created via profiles are automatically approved. ⚠ <i>Make sure your profiles are not executable or editable by untrusted users.</i> | Disabled |
| Plugin pending approval notification | Send an email alert to users with permission to approve plugins when a plugin approval is pending | Disabled |
| Default for img-fluid class used in the IMG plugin | Default option for whether an image produced with the IMG plugin has the img-fluid class - a plugin parameter allows this to be overridden | Enabled |
| Maximum plugin parsing passes | Affects the number of wiki plugins that can be used. The default of 500 allows for 1 plugin nested seven times, or 44 plugins nested once. A value of 1200 is required for 1 eighth level plugin. ⚠ <i>Setting this to a higher value than the default of 500 may have performance implications.</i> ⚠ | 500 passes |
| Allow plugin-specific edits | Add an icon next to each plugin usage to enable editing the plugin in a popup form, without needing to edit the whole page. This feature is unavailable outside wiki pages, whether or not this preference is enabled. | Enabled |
| Only display focused edit icons (for sections and/or plugins) on request | Focused edit icons will only display after a per-session "Edit icons" preference is enabled. This preference is defined directly from any wiki page. | Enabled |
| GUI for the list plugin | Experimental GUI for the list plugin in popup plugin edit forms. (listgui) ⚠ | Enabled |
| Plugin trackerlist converter | Button on trackerlist and trackerfilter plugins edit form to convert them to use the list plugin instead. ⚠ | Disabled |
| Plugins tab of the textarea control panel loads with an empty list | Improve the performance of the textarea control panel by avoiding the loading of all plugins initially ⚠ <i>Some plugins may not appear. When using the MySQL engine, can have problems with short plugin names (for MyISAM, those under "ft_min_word_len").</i> ⚠ | Disabled |
