

Rating Tracker Field

This is a [stub](#)

Introduced in [Tiki8](#), this is the corresponding tracker field to the feature [Rating](#) and [Advanced Rating](#).

In [Tiki12](#), at least, you have 3 modes:

- Stars
- Radio Buttons
- Single option: e.g. Like

You can also set the labels to something else different from the real values that will be stored for the calculation of average, etc.

In this example, below, the tracker field Rating was set with:

- Option: -2,-1,0,1,2
- Mode: Stars
- Labels: -2,-1,0,1,2

Tracker: Bugs & Wish list

The screenshot shows the 'Tracker: Bugs & Wish list' interface. At the top, there are two buttons: 'Trackers' and 'View Items'. Below them is a link: 'If this is your first time, please read: [How to Submit a new item on the Wish](#)'. The main content area has two tabs: 'Tracker Items' and 'Insert New Item'. The 'Tracker Items' tab is active, showing a list of items. The first item is 'Monitoring pre-dogfood servers' with a rating of 1. The second item is 'Together: make it work for wiki pages, spreadsheet, drawing,' with a rating of 2. A tooltip is visible over the second item, showing 'Number of votes: 2, Average: 1.5, Your rating: 2'. The third item is 'Screenscasts in comments: no longer showing' with a rating of 1. The interface includes a search bar, a 'Items found: 1552' indicator, and a table with columns for 'New Rating', 'Subject', and 'Subj'.
