

Module Friend List

This [Module](#) displays a list of friends.

Usage

To use module **Friend List** in a wiki page:

```
{module module="friend_list"}
```

Displays a list of friends

[Go to the source code](#)
Preferences required: feature_friends

Parameters

no parameters

Example

In the example below we pass in a wiki page the module Friend List through the plugin module.
So, this code:

```
{module module="friend_list"}
```

Would produce on this site:

Friend List

- No friends have been added.

Note that you have a button that allows you to add friends.
