

# Auto TOC

Starting in [Tiki12](#), a new feature to allow adding an automatic Table Of Contents ("Auto TOC") has been added to the Wiki. And starting in [Tiki23](#), you can have more options via [PluginAutoTOC](#)

## ENABLE IT

Auto-toc can be enabled as admin through the admin panel in "**Admin home > Wiki > General Preferences (Tab) > Section Automatic table of contents (Page Display before Tiki 15) > Wiki auto-toc**"

You can also choose:

- the default for each page (which can be overridden per page)
- If the top TOC should be inserted into the page content or not
- Position left or right
- Offset from the top

### Automatic table of contents

Auto TOC is not included in the print view of the page.

# USAGE

Auto-toc will add the TOC in two places.

1. A static TOC located at the top of the page. The TOC is inserted into the page content at runtime

• Example:

The screenshot shows a community profile page with a static TOC at the top right. The page content includes:

- Thank you for installing the Collaborative Community Profile**
  - Thank you for installing the Collaborative Community Profile
  - Welcome to Our Community
    - Step 1: Explore
    - Step 2: Ask a Question and Give Feedback
    - Step 3: Contribute
- We recommend you visit the [Instructions](#) page to learn how to manage and use this profile
- Welcome to Our Community**

Welcome to our community site, the goal of this project is to create a knowledge hub for everyone who is interested in this subject to participate and collaborate together.
- Step 1: Explore**
  - Search for Content
  - Visit Wiki Pages
  - Read Blogs and Forums
- Step 2: Ask a Question and Give Feedback**
  - Register to become part of the community
  - Ask questions in the Forums
  - Give feedback using Comments at the bottom of any page
- Step 3: Contribute**
  - Start Creating, Editing and Enhancing our Community Knowledge Base.

```

## DISABLE IT IN SOME PAGES

You can disable it in some wiki pages. In order to do so, edit the page, go to the properties tab, and set "**Page display options > Automatic Table of Contents generation**" to "**off**":
