

## COLORBOX "GALLERY"

and this way you can have more images in wiki page displayed in the shadowbox as a gallery:

```
{img src="http://farm3.static.flickr.com/2091/1532249675_5f917a49ac_s.jpg"
link="http://farm3.static.flickr.com/2091/1532249675_5f917a49ac_b.jpg" title="Some Image from flickr.com"
rel="shadowbox[gallery]} {img src="http://farm2.static.flickr.com/1185/1467868764_898ec5daf3_s.jpg"
link="http://farm2.static.flickr.com/1185/1467868764_898ec5daf3_b.jpg" title="Old Port in Trogir by luci"
rel="shadowbox[gallery]} {img src="http://farm3.static.flickr.com/2212/1532365551_6856d00717_s.jpg"
link="http://farm3.static.flickr.com/2212/1532365551_a1ad132f1c_o.jpg" title="Sun Going Down by luci"
rel="shadowbox[gallery]}
```

results in:

## USING HTML CODE WITH SEURL ACTIVATED

Note: due to specific settings at doc it is not possible to call images directly using `displayfileId` or `tiki-download_file.php?fileId=fileId&display`. It should work fine on your Tiki.

```
<a href="display109" data-box="box[g]">Using html code</a>
```

## WANNA YOUTUBE VIDEO IN THE BOX ?

---

```
[http://www.youtube.com/v/KBewVCducWw&autoplay=1|You Tube video in their flash  
player|shadowbox;width=405;height=340;]
```

watch it here:

[You Tube video in their flash player](#)

## A BUTTON OPENS CONTENT IN A BOX

---

```
{BUTTON(href="HomePage",_rel="box",_text="Go there")}{BUTTON}
```

will create a button that opens the `HomePage()` in a colorbox:

[Go there](#)

## INLINE CONTENT IN A \*BOX TRICK

---

```
[#helloworld|Click Me !|shadowbox;width=280;height=180;title=Login Box] {BOX(id=helloworld,class=wiki-  
edithelp)} {TAG(tag=div,style=background-color: white !important;)} --- ::__Hello world !__::  
{MODULE(module=login_box)} {MODULE} ::Thank you for trying me !:: --- {TAG}{BOX}
```

looks like:

[Click Me !](#)

## CONTENT LOADED USING AJAX

### EXAMPLE1

×

 Please Note

Content can't be loaded via Ajax from a different site/domain.

Code:

```
{JQ()}$jq("#ajaxload a").colorbox({ href: function(){ return $jq(this).attr('href')+' .wikitext'; } } );{JQ}{DIV(id="ajaxload")}[tiki-  
index_raw_raw.php?page=HomePage|Content of a wiki page in ColorBox]{DIV}
```

Result:

[Content of a wiki page in ColorBox](#)

### EXAMPLE2

×

 Please Note

Content can't be loaded via Ajax from a different site/domain.

Code:

---

[http://zukakakina.com/tiki-index\_raw\_raw.php?page=HomePage|Content of a wiki page in ColorBox|box]

Result:

[Content of a wiki page in ColorBox](#)
