FAQs

Overview

The FAQ feature is a way to create one or more structured FAQs or Frequently Asked Questions

To access

Click the **FAQs** icon on the Admin Panel
or
Access **http://example.org/tiki-admin.php?page=faqs**

Note

The FAQ feature has been deprecated and should not be used for any new Tiki sites. Typically FAQs are being replaced either by Forums (users self support) or Wikis (output to users from answer creators) or Articles (CMS) or Trackers (create your own forms and functionality)
