

# Cart Module

Introduced in [Tiki5](#)

This [module](#) displays the content of the cart, allows to modify quantities and proceed to [payment](#). It is intended to be used in conjunction with [PluginAddToCart](#).

## USAGE

You can assign the module in a module zone using the standard [Module Settings Interface](#).

You can also insert the module in any page using the [PluginModule](#):

Module

```
{module module="cart" ajax="y" showItems="y" showCount="y" showItemButtons="y" nobox="y"}
```

## PARAMETERS

Displays the content of the cart, allows quantities to be modified and proceeds to payment.
