

Module Google

This Module displays a Google search box from which users can search your site or the entire web.

Parameters

Displays a simple form to search on Google. By default, search results are limited to those on the Tiki site.

[Go to the source code](#)

Parameters

no parameters

Usage

You will see it listed at "Admin > Modules > Assign new module > Module Name (drop down)" (**tiki-admin_modules.php**).

You can assign this Module to a lateral column (See Module Admin page if needed), or you can include it within a wiki page, using the PluginModule.

The assigned module looks like this:

Google Search

Note: The search results are shown in a new browser window on Google — not your Tiki.
