Notifications

Note: Notifications were introduced in Tiki13 and were expected to replace the similar feature "User Watches" in Tiki14. However, both notification systems have coexisted untill Tiki18, at least, due to the unique strengths (and weaknesses) of each one of them. See a comparison

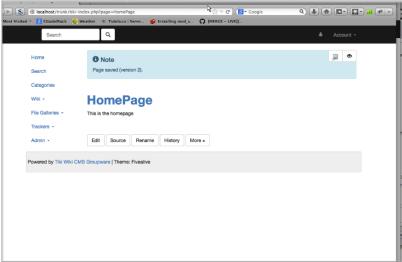

1.1. Enable the feature

Enable the feature in "Admin home > Community"

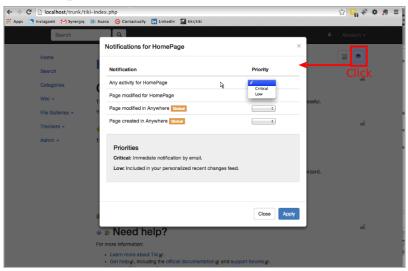

← → C 🗋 localhost/trunk tiki-ad	dmin.php?page=community	☆ 😽 🏕 🙇 🚍
Apps 🖹 Instagantt 🕅 Synergiq 🗃	Asana 👩 Contactually 📊 LinkedIn 🛃 ti	ki/tiki
Search		Account -
G) My Bookmarks 😡	
	User Contacts 🥹	
8	Notifications 🕕 🕽	
		econds O to disable, every refresh causes a hit on the server, try to leave this above 60 seconds.
 Notification Digests • For the digest emails to be sent out, you will need to set-up a cron job. Adjust the command parameters for your digest frequency. Default frequency is 7 days. Sample command: //usr/bin/php /Library/WebServer/Documents/trunk/console.php localhost 7path=/trunk/ 		
User Watches Translations		
e	🛛 User Watches 😡 📰	
G	Group Watches 🌚	

1.2. Notice the changes in the interface

Once the notification is set up, when the page is changed, the notification counter is updated in the top bar. Once activated, the eye icon above objects provide a single interface to manage all notifications related to the curren object, including categories, structures, translations and other object regroupements.

1.3. Set up some notifications

Click to expand

The notifications allow the users to select the priority of a notification to them, potentially reducing the amount of email noise generated by monitoring too many pages or forum posts.

1.4. View notifications

Notifications use the activity stream feature to preserve notifications that were triggered for users. These can be viewed on the website itself or sent as a periodic digest.

1.5. Digests

Notifications can be viewed on the website itself or sent as a periodic digest.

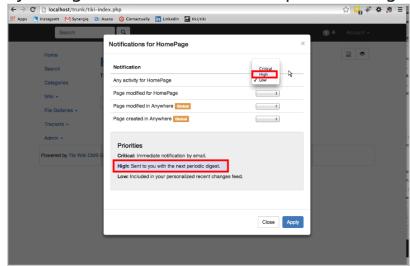

1.5.1. Enable the notification digest

You can enable the feature notification digests:

← → C 🗋 localhost/trunk tiki-admin.php?page=community			
👯 Apps 📑 Instagantt 🕅 Synergiq 📑 Asana	🚱 Contactually 📊 LinkedIn 🛃	tiki/tiki	
Search	٩	1 Account -	
User Contacts			
S Notifications 🚯 🗊			
Clear Individual notifications 🕔			
Noti	ification count refresh interval:	2	
		seconds	
		0 0	
		0 to disable, every refresh causes a hit on the server, try to leave this above 60 seconds.	
Not	tification Digests 🐠		
For	For the digest emails to be sent out, you will need to set-up a cron job.		
	Adjust the command parameters for your digest frequency. Default frequency is 7 days. Sample command:		
	Jusr/bin/php /Library/WebServer/Documents/trunk/console.php localhost 7path=/trunk/		
User Watches Translations 😡			
🕞 User Watches 🥪 🚍			
🖯 Gro	🔄 Group Watches 💿		
🗎 Dail	Daily Reports for User Watches		
User Watches Translations			

Click to expand

This way, you can later on set to "High" the choice in the drop down at the user notifications of tiki objects. This way they will get added to the next periodic digest.
