

Plugin Add to Cart

Use this wiki plugin, introduced in Tiki5, to display a button for adding one or more items to the shopping cart. The shopping cart is displayed and accessed using Module Cart. Once the order is placed in the shopping cart, the user is taken to Payment.

Parameters

Add a product to the shopping cart.

Introduced in Tiki 5. Required parameters are in **bold**.

[Go to the source code](#)

Preferences required: `wikiplugin_addtocart`, `payment_feature`

Example

This code,

```
{addtocart description="Panama Hat" code="A150" price="45.00"}
```

Would produce:

The add to cart button would typically be used along with item information like below:

screenshot)

Panama Hat
\$45.00

×

i Note

The description, inventory code and price are passed to the shopping cart when the add to cart button is clicked.
