

# Plugin Avatar

This wiki plugin displays a user's profile picture and can make it a link to another page.

# Parameters

Display a user's profile picture

*Introduced in Tiki 1.*

[Go to the source code](#)

*Preferences required:* `wikiplugin_avatar`

| Parameters            | Accepted Values          | Description   | Default | Since |
|-----------------------|--------------------------|---|---------|-------|
| (body of plugin)      |                          | username  |         |       |
| <code>fullsize</code> |                          | If full-size images are stored in the file gallery, show the full-size image.   | n       | 10.0  |
| <code>float</code>    | (blank)<br>right<br>left | Align the profile picture on the page   |         | 1     |
| <code>page</code>     |                          | The wiki page the profile picture will link to. If empty and the user's information is public, then the profile picture will link automatically the that user's user information page |         | 1     |

# Example

# Float right

*This code:*

```
{AVATAR(float="right")}luci{AVATAR}
```

*Would produce on this site:*
