Default	Since
---------	-------

>	1
---	---

top

(blank)

y

n

Show the top category as part of the path name (not shown by default)

no

1

EXAMPLE

Let's say you had a page with the lyrics to the song *Hands on the Wheel*, and it is categorized by the singer and the composer, and that all pages with song lyrics on the site are categorized as **Songs**. Here's what the CATPATH plugin would produce on that page:

This code,

Example syntax

```
{catpath}
```

Would produce:

```
Songs > Singer > Willie Nelson  
Songs > Composer > Bill Callery
```
