Plugin Content

Use this wiki plugin, introduced in Tiki3, to display content from the Dynamic Content repository. There, publish dates can be set in advance so that the content automatically changes as desired. So the Dynamic Content feature must be turned on and a dynamic content block created and programmed before this plugin can be used.

PARAMETERS

Display content from dynamic content repository
Introduced in Tiki 3.
Go to the source code
Preferences required: feature_dynamic_content, wikiplugin_content

Parameters	Accepted Values
id	digits
