

Plugin Cookie

Use this [wiki plugin](#), introduced in [Tiki3](#), to display a tagline or (fortune) cookie from the [Cookies](#) feature set up by the administrator. A new cookie is displayed in italics and within double quote marks every time the page is refreshed (assuming more than one has been input into the Cookies feature).

PARAMETERS

Display a random tagline or "cookie" (in the "fortune cookie" sense).

Introduced in Tiki 3.

[Go to the source code](#)

Preferences required: `wikiplugin_cookie`

EXAMPLE

This code,

`{cookie}`

Would produce on this site:

"When just a wiki is not enough..."

×

 Tip

Refresh the page to see another cookie
