

Plugin Cookie

Use this wiki plugin, introduced in Tiki3, to display a tagline or (fortune) cookie from the Cookies feature set up by the administrator. A new cookie is displayed in italics and within double quote marks every time the page is refreshed (assuming more than one has been input into the Cookies feature).

Parameters

Display a random tagline or "cookie" (in the "fortune cookie" sense).

Introduced in Tiki 3.

Go to the source code

Preferences required: `wikiplugin_cookie`

Parameters

no parameters

Example

This code,

`{cookie}`

*Would produce on this site:
"When just a wiki is not enough..."*

×

i Tip

Refresh the page to see another cookie
