

# Plugin Fancy List

Use this [wiki plugin](#), introduced in [Tiki3](#), to produce a fancy looking numbered list.

## PARAMETERS

Create a formatted numbered list

*Introduced in Tiki 3.*

[Go to the source code](#)

*Preferences required: wikipugin\_fancylist*

Parameters	Accepted Values
(body of plugin)	
<code>class</code>	text
<code>div</code>	(blank)
	1
	0

---

## Description

One item per line starting with anything followed by ")".

CSS class for the fancylist

Use the HTML div tag instead of the HTML ordered list tag (ol)

Default	Since
---------	-------

	3.0
--	-----

	3.0
--	-----

# EXAMPLE

In this example, additional formatting is applied to the items in the list: the double single quotes ( `" "`) to produce italics, and the two underscores before and after the words ( `_ _`) to make the font bold. See [Wiki Syntax](#) for more information on text formatting.

*This code,*

```
{FANCYLIST()} " _Antiquity_ " " _Middle Ages_ " " _Renaissance_ " " _Age of Enlightenment_ " " _Romantic Era_ " " _20th Century_ " " _Present Day_ " {FANCYLIST}
```

*Would produce:*

1. ***Antiquity***
2. ***Middle Ages***
3. ***Renaissance***
4. ***Age of Enlightenment***
5. ***Romantic Era***
6. ***20th Century***

## **7. Present Day**
