

# Plugin GoogleÂ Doc

This wiki plugin, introduced in Tiki3, allows you to include a document from the Google Docs service in a page.

*The user may need to log in to Google before seeing the document.*

## Parameters

Display a Google document

*Introduced in Tiki 3. Required parameters are in **bold**.*

[Go to the source code](#)

*Preferences required:* `wikiplugin_googledoc`

Parameters	Accepted Values	Description	Default	Since
(body of plugin)		Leave this empty.		
<b>key</b>	text	Google doc key - for example: <code>pXsHENf1bGGY92X1iEeJJI</code>		3.0
<b>type</b>	(blank) document slides spreadsheet forms drive	Type of Google document		3.0
<b>name</b>	text	Name of iframe. Default is "Frame" + the key		3.0
<b>url</b>	url	The URL of the file on Google Drive		24.0
<b>height</b>	digits	Height in pixels or %	400	3.0
<b>marginheight</b>	digits	Margin height in pixels		3.0

marginwidth	digits	Margin width in pixels		3.0
width	digits	Width in pixels or %	800	3.0
align	(blank) top middle bottom left right	Position of frame on page		3.0
editLink	(blank) top bottom both	Choose whether to show an edit link and set its location		3.0
frameborder	(blank) 1 0	Choose whether to show a border around the iframe	0	3.0
scrolling	(blank) yes no auto	Choose whether to add a scroll bar		3.0
size	(blank) small medium large	Size of frame. Use instead of width and height. The sizes will fit the Google presentations sizes exactly.		3.0

# Google Key

The most important parameter is the Google key. One way to find it is, on your documents list, click-right and go to "Get Link". You will see an URL to share your document. This URL contains the Google document key and you need to copy it to the plugin.

IE (the key is in red colour):

[https://docs.google.com/forms/d/1fqq6Uq8fwhTV7mvt5iy\\_dkUE6MtLGJRck37VKJQNzTI/edit?usp=sharing](https://docs.google.com/forms/d/1fqq6Uq8fwhTV7mvt5iy_dkUE6MtLGJRck37VKJQNzTI/edit?usp=sharing)

Note that on the same modal dialog you will be able to see who has right to see the document.

# Examples

# Basic syntax

---

```
{googledoc key="pXsHENf1bGGY92X1iEeJl" type="spreadsheet" name="docFrame1" width="400" height="500" align="middle" frameborder="0" marginheight="5" marginwidth="5" scrolling="yes" editLink="both"}
```

In case you select drive the key is not required, but you must provide the Google Drive link of your file.

Note that type drive does not support *documents*, *spreadsheets*, *forms*, or *slides*, better to select a type that meets the requirements.

---

```
{googledoc key="pXsHENf1bGGY92X1iEeJl" type="drive" name="docFrame1" url="https://drive.google.com/file/d/1fq6Uq8fwhTV7mvt5iy_dkUE6MtLGJRCk37VKJQNzTI/view" scrolling="yes"}
```

# Screenshot

The screenshot shows a TikiWiki page titled "Spreadsheet". The page content includes a "Note" section with the text "Page saved (version 12).", a section titled "Spreadsheet from Google Docs" containing a paragraph of Lorem Ipsum text, and an embedded "Test spreadsheet" from Google Docs. The spreadsheet has a table with 7 rows and 4 columns. The first column contains the numbers 3, 5, 3, 4, 5, 6, 7. The second column contains the values 7876, 4, 5, 6, 7. The third column contains the values 99999 and 3. The fourth column contains the values 99999 and 3. Below the spreadsheet are two analog gauges. The left gauge has a needle pointing to 99999 and the right gauge has a needle pointing to 3. The page also features a left sidebar with navigation links and a bottom section with instructions for installing and customizing TikiWiki.
