

Plugin Register Member Payment

Using the plugin Register Member Payment you can allow visitors to register and pay membership fees to be added in a group of users in [Tiki](#). Existing users, registered users, can also use this plugin to subscribe to a group.

Introduced in [Tiki9.1](#) and improved through several [Tiki versions](#).

This can be used once group and group policies (parameters) have been set in a way users can assign themselves to a group and this group has memberships settings sets and saved:

- User Choice
- Membership expiry
- Anniversary
- Number of Days

To admin your Tiki group, see: [User Groups](#) and [Payment](#).

You can use this [wiki plugin](#) to register and make a member payment in the same step.

PARAMETERS

Register and make a member payment at the same time

*Introduced in Tiki 9.1. Required parameters are in **bold**.*

[Go to the source code](#)

Preferences required: `wikiplugin_registermemberpayment`, `payment_feature`
