Help Tiki Spread

Help Improve Tiki

Contribute to Tiki

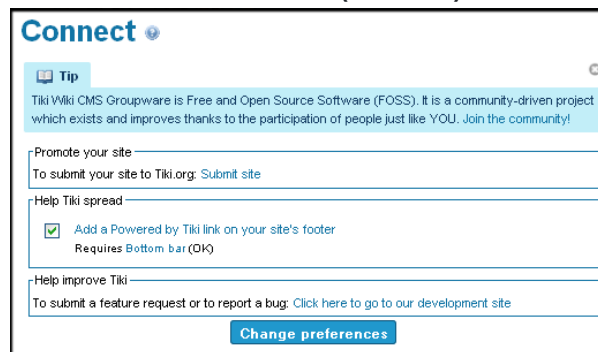

Description

Click to add the **Powered by Tiki** module to your site.

Click to access the Bug and Wishlist form on the Tiki Development site.

Click to make a financial donation to the Tiki Association. See <http://tiki.org/Donation> for more information.

Note: Tiki is Free and Open Source Software (FOSS). You *do not* have to pay to use Tiki.

The screenshot shows the 'Connect' settings page in Tiki. At the top, there is a 'Tip' box with a light blue background and a small icon of a person, containing the text: 'Tiki Wiki CMS Groupware is Free and Open Source Software (FOSS). It is a community-driven project which exists and improves thanks to the participation of people just like YOU. Join the community!'. Below the tip, there are three sections with expandable headers: 'Promote your site' with a text input field and a 'Submit site' link; 'Help Tiki spread' with a checked checkbox for 'Add a Powered by Tiki link on your site's footer' and a note 'Requires Bottom bar (OK)'; and 'Help improve Tiki' with a text input field and a link to 'Click here to go to our development site'. At the bottom of the form is a blue button labeled 'Change preferences'.
