

Module wiki_last_comments

This module shows the wiki page and the comment title for any comments made since the last time the user visited the site.

Last wiki comments
1)Mammals: Otters are my favorite!
2)HomePage: I think lizards are better
3)HomePage: I like snakes

Parameters

Lists the specified number of comments starting from the most recently posted.

[Go to the source code](#)

Parameters	Accepted Values	Description	Default	Since
<code>moretooltips</code>		If set to "y", the name of the object on which a comment is made is not displayed in the module box, but instead moved in the item's tooltip.	n	
<code>language</code>	word	Comments about objects in this language only.		
<code>commentlength</code>	digits	If comments don't use titles this sets the maximum length for the comment snippet.	40	
<code>type</code>	word	Type of the objects from which comments will be listed. Possible values: wiki page, article.	wiki page	
<code>avatars</code>	alpha	Display user profile pictures instead of numbers.	n
