

## Plugin Cookie

Use this [wiki plugin](#), introduced in [Tiki3](#), to display a tagline or (fortune) cookie from the [Cookies](#) feature set up by the administrator. A new cookie is displayed in italics and within double quote marks every time the page is refreshed (assuming more than one has been input into the Cookies feature).

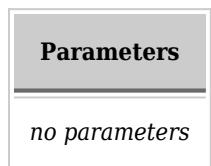

## Parameters

Display a random tagline or "cookie" (in the "fortune cookie" sense).

*Introduced in Tiki 3.*

[Go to the source code](#)

*Preferences required:* wikiplugin\_cookie

## Example

*This code,*

```
{cookie}
```

*Would produce on this site:*

"When just a wiki is not enough..."
