

# Footnote and Footnote Area Plugins

These [wiki plugins](#), work together to create automatically numbered footnotes. The superscript footnote numbers (like this<sup>[1]</sup>) and text are set with the Footnote plugin, and then are displayed using the Footnote Area (Footnotearea) plugin.

## Parameters

Create automatically numbered footnotes (together with PluginFootnoteArea)

*Introduced in Tiki 3.*

[Go to the source code](#)

Preferences required: `wikiplugin_footnote`

Parameters	Accepted Values	Description	Default	Since
(body of plugin)		The footnote		
<code>class</code>		Add class to footnotearea	14.0	
<code>sameas</code>		Tag to existing footnote number	5.0	
<code>sameastag</code>		Tag to existing footnote by its Tag	15.0	
<code>scheme</code>		Segregate footnotes by class in footnotearea. Apply different numbering style (optional)	17.0	
<code>tag</code>		Tag footnote with unique identifier	15.0	

## Usage

The parameters are optional for these plugins (nothing is required between the parentheses) but here are the steps that need to be followed for them to work:

- 1. Place the Footnote plugin just after the text to be footnoted.**
  - This will create a superscript footnote number next to the text.
  - The footnote number automatically links to the footnote text (of course this link only works if the Footnotearea plugin is also used).
  - The footnote numbers are automatically incremented based on how many Footnote plugins are used.
- 2. Enter the text of the footnote within the Footnote plugin opening and closing tag.**
- 3. Place the Footnote Area plugin at the end of the page in order to display the footnotes.**
  - All footnotes will be displayed in order at the bottom of the page. There may be a visual separator, depending on the theme in use.
  - The footnote numbers here link back to where the text was footnoted.

- Note that the links will not function if there is a page break between the relevant Footnote and Footnotearea plugins. Also, the Footnotearea plugin must be placed at the end of the page because no content will display after the plugin.

## Examples

### Basic syntax

#### sameas (after Tiki15, use sameastag instead)

First, input the Footnote plugin syntax following the text you want footnoted:

```
Text to be footnoted{FOOTNOTE()}Footnote text to be displayed elsewhere{FOOTNOTE}
```

```
Text to be footnoted{footnote(sameas="1")}{FOOTNOTE}
```

Second, add the Footnotearea plugin syntax to display the footnotes at the end of the page:

```
{footnotearea}
```

**Note:** the *sameas* parameter has the big issue that adding a new footnote above the other footnotes requires that you renumber all *sameas* footnotes below the new footnote.

#### sameastag (after Tiki15)

Starting at Tiki15, the *sameastag* parameter allows tagging footnotes for later reuse.

```
Text to be footnoted{footnote(tag="t1")}{FOOTNOTE}Footnote text to be displayed elsewhere{FOOTNOTE}
```

```
Text to be footnoted{footnote(sameastag="t1")}{FOOTNOTE}
```

Second, add the Footnotearea plugin syntax to display the footnotes at the end of the page:

```
{footnotearea}
```

## Example

*This code:*

#### Example syntax using Footnote and Footnotearea plugins

```
In Blume's outdated view, the Classic period of music{FOOTNOTE()}Sometimes dated from  
1740 to 1828, from when C.P.E. Bach began service in the court of Frederick the Great to when
```

Schubert died. {FOOTNOTE} used rhythm "with the finest nuance and sensibility," {FOOTNOTE(tag="fblume")}{FOOTNOTE} Friedrich Blume, "Classic and Romantic Music: a Comprehensive Survey", trans. M.D. Herter Norton (New York: W.W. Norton and Co., Inc., 1970), p. 133.{FOOTNOTE} whereas Schubert and the Romantics often used rhythm in repetitive, stereotyped patterns."{FOOTNOTE()} "Ibid".{FOOTNOTE} It is now recognized that those features of Schubert's work which give us such pleasure rest on a magnificently concieved and executed sense of tonal architecture. Duplicate footnotes section: This is to show examples of the -+sameas+- and -+sameastag+- parameters {FOOTNOTE(sameastag="1")}{FOOTNOTE} {FOOTNOTE(sameastag="fblume")}{FOOTNOTE} and check duplicates {FOOTNOTE()} "Ibid".{FOOTNOTE} {FOOTNOTE(class="translator")}{FOOTNOTE} translator notes{FOOTNOTE} {FOOTNOTE(class="author")}{FOOTNOTE} %%% %%% {footnotearea}

Would produce :

#### Example result

In Blume's outdated view, the Classic period of music<sup>1</sup> used rhythm "with the finest nuance and sensibility,"<sup>2</sup> whereas Schubert and the Romantics often used rhythm in repetitive, stereotyped patterns.<sup>3</sup> It is now recognized that those features of Schubert's work which give us such pleasure rest on a magnificently concieved and executed sense of tonal architecture.

#### Duplicate footnotes section:
