(body of plugin)		description		
`value`	float	Current value to be represented by the gauge		1
`perc`	(blank) 1 (blank)	Set to `true` (Yes) to display a percentage of the maximum.		1
`showvalue`	(blank) 1 (blank)	Set to %1 (No) to hide the numeric value (shown by default).	1	3.0
`height`	digits	Bar height in pixels.	14	1
`label`	text	Label displayed on the left side of the gauge.		1
`labelsize`	digits	Label width, in pixels.	50	1
`max`	digits	Maximum possible value. Default: `100`	100	1
`size`	digits	Bar width in pixels.	150	1

|				
`bgcolor`	Background color of the gauge. Use HTML color codes or names.	#0000FF	1
`color`	Main color of the gauge. Use HTML color codes or names.	#FF0000	1

Example

This code:

```
{GAUGE(value="15000" max="16443" label="Satisfied users" perc="true" labelsize="250" height="20" color="green" bgcolor="#EEEEEE")}__User satisfaction survey results__{GAUGE}
```

Would produce:

Satisfied users   91.22%
User satisfaction survey results
