Plugin Local Files

Use this wiki plugin, introduced in Tiki 12, to link to files or directories on local drives or shared file servers. It is likely to only work fully on Internet Explorer for Windows based intranets. Browsers other than Internet Explorer will not link to files. See also: PluginLsDir

Table of contents

Parameters

Show a link to local or shared files and directories.
Introduced in Tiki 12.

Go to the source code
Preferences required: wikiplugin_localfiles
