

Plugin Object Hits

Use this [wiki plugin](#) to display the number of hits for a wiki page, article, image gallery, file gallery and individual images or files in a gallery. The total number of hits can be displayed or the number of hits over the past x number of days.

Parameters

Display the number of hits for certain objects

Introduced in Tiki 1.

[Go to the source code](#)

Preferences required: wikipugin_objecthits

Parameters	Accepted Values	Description	Default	Since
<code>days</code>	digits	Show the number of hits over the past number of days indicated. Default is to show all hits.	0	1

Examples

This code:

```
Example with no parameters set  
{objecthits}
```

Would produce on this site (total hits for this page):

10972

This code:

```
Another wiki page and days used  
{objecthits  
object="Documentation"  
days="30"}
```

Would produce on this site (hits on the Documentation page - home page for this site - for the past 30 days):

294931

This code:

```
Hits for an article  
{objecthits object="19?News  
from doc.tw.o!" type="article"}
```

Would produce on this site (total hits on article ID 19, titled News from doc.tw.o!):

5820
