Plugin Register Member Payment

Using the plugin Register Member Payment you can allow visitors to register and pay membership fees to be added in a group of users in Tiki. Existing users, registered users, can also use this plugin to subscribe to a group.

Introduced in Tiki9.1 and improved through several Tiki versions.

This can be used once group and group policies (parameters) have been set in a way users can assign themselves to a group and this group has memberships settings sets and saved:

- User Choice
- Membership expiry
- Anniversary
- Number of Days

To admin your Tiki group, see: User Groups and Payment.

You can use this wiki plugin to register and make a member payment in the same step.

Parameters

Register and make a member payment at the same time
Introduced in Tiki 9.1. Required parameters are in `bold`.
Go to the source code
Preferences required: wikiplugin_registermemberpayment, payment_feature

Parameters	Accepted Values	Description	Default	Since
(body of plugin)		NA		
`price`	text	Price per period (USD).		5.0
`group`	groupname	Name of the group for which the subscription should be added or extended.		5.0
`fixedperiods`	text	Give specific periods that can be chosen with a dropdown list. Example: `name:value;name:value;value;value;`	Number of periods:	9.1
`freeperiods`	int	Give specified numbers of free periods, the first one could be prorated, in addition to those bought	0	9.0

`howtitle`	text	Add a title to the payment form when initially shown after clicking "Continue". Use %0 for the group name, %1 for the price, %2 for the currency, %4 for the number of days and %5 for the number of years. Supports wiki syntax	Membership to %0 for %1 (x%2)	6.0
`inputtitle`	text	Title of the initial input form. Use %0 for the group name, %1 for the price, %2 for the currency, %4 for the number of days and %5 for the number of years. Supports wiki syntax.	Membership to %0 for %1 (x%2)	6.0
`periodslabel`	text	Customize the label for the periods input. No effect if Hide Period is set to Yes (`y`).	Number of periods:	9.1
`paytitle`	text	Title of the payment form after the initial showing. Use %0 for the group name, %1 for the price, %2 for the currency, %4 for the number of days and %5 for the number of years. Supports wiki syntax	Membership to %0 for %1 (x%2)	11.0
`currentuser`	(blank) y n	Membership only for the current user	n	6.0
`preventdoublerequest`	(blank) y n	Prevent user from extended if there is already a pending request	n	8.0
`returnurl`	url	Page that payment service returns to after processing.		11.0
`hideperiod`	(blank) y n	Do not allow user to set period - use default of 1.	n	11.0
`inputtitleonly`	(blank) y n	Select Yes (`y`) to just show the title of the input form and not the period and cost information. Input Title must be set as well.	n	11.0
`howtitleonly`	(blank) y n	Select Yes (`y`) to just show the title of the payment form. Initial Payment Form Title must be set as well.	n	11.0

`paytitleonly`	(blank) y n	Select Yes (y) to just show the title of the payment form that shows after the initial viewing. Subsequent Payment Form Title must be set as well.	n	11.0
