*Preferences required:* wikiplugin\_usercount

| Parameters       | Accepted Values                  | Description   | Default | Since |
|------------------|----------------------------------|---|---------|-------|
| (body of plugin) |                                  | Group name. If left blank, the total number of users for the site will be shown.  |         |       |
| groups           | groupname<br><i>separator: :</i> | List of colon separated groups where a consolidated user count for multiple groups is needed. Users in multiple groups are counted only once. If left blank then the behaviour is defined by the body parameter settings. |         | 14.1  |
