

Profiles Wizard

Since [Tiki12](#), this wizard shows the admin some information about the most recommended profiles to apply, either to set up your site with a featured configuration template, add some useful extra configuration, or show a demonstration of potentially interesting features for you, just with a few clicks.

It can be launched from the first screen of the Tiki Setup shown just after the admin logs in in a new tiki site:

Click to expand

Remember that if your server is behind a firewall, you need to set the [proxy settings](#) in order to allow your Tiki to connect to the profiles repository.

- Demo of Commonly Used Configurations
- Demo of Interesting Use Cases
- Demo of More Advanced Configurations
- Demo of Highly Specialized Configurations
- Configuration Profiles Wizard Completed!

Initialize Tiki as an application, e.g. a blog, by means of applying one of the 4 featured configuration profiles.

Profiles:

Collaborative Community (apply profile now)
Setup to help subject experts and enthusiasts work together to build a Knowledge Base

Click to expand

Company Intranet (apply profile now)
Setup for a Corporate Intranet of a typical medium-sized business.

Click to expand

Personal Blog and Profile (apply profile now)
Setup with many cool features to help you integrate the Social Web and establish a strong presence in the Blogosphere

Click to expand

Small Organization Web Presence (apply profile now)
Setup for a Web Presence of a typical small business or non-profit.

Click to expand

Click to expand

1.2. Useful Micro Configurations

- [Collaborative_Community_Wiki_menu](#)page <- "Menu on Wiki page"
- [Random_header_images](#)
- [Multilingual_Wiki_12x](#)
- [Countries_By_Region](#) (as categories)

Show on admin login

- Useful Micro Configurations**
- Useful Changes in Display Mode
- Useful New Technology Configurations
- Useful Administration Configurations
- Demo of Commonly Used Configurations
- Demo of Interesting Use Cases
- Demo of More Advanced Configurations
- Demo of Highly Specialized Configurations
- Configuration Profiles Wizard Completed!

Check out this set of potentially useful profiles for your site which involve small amount of changes in your site configuration.

Profiles:

Menu on Wiki page (apply profile now)
This profile sets up a side module with a menu based on a wiki page in the right hand-side column.

Click to expand

Random header images (apply profile now)
This profile adds a module in the top zone that displays a random image from a File Gallery.

Click to expand

Multilingual Wiki (apply profile now)
This profile allows Tiki content translation, and sets up modules to change language and to display links to page translations with their percentage of completion.

Click to expand

Countries By Region (apply profile now) This profile will create a set of categories and subcategories in your site with the names of countries grouped by regions.

1.3. Useful Changes in Display Mode

- [Mobile](#)
- [Slideshow_demo](#)

Show on admin login

Close Back Next

Useful Changes in Display Mode

Check out some useful profiles that involve changing the display mode of content in your site.

Profiles Wizard - steps:

- Tiki Setup
- Featured Site Configurations
- Useful Micro Configurations
- Useful Changes in Display Mode
- Useful New Technology Configurations
- Useful Administration Configurations
- Demo of Commonly Used Configurations
- Demo of Interesting Use Cases Configurations
- Demo of More Advanced Configurations
- Demo of Highly Specialized Configurations
- Configuration Profiles Wizard Completed!

Profiles:

Mobile (apply profile now)
This profile allows to switch the site layout, text and icons to users with smartphones and tablets

Slideshow demo (apply profile now)
This profile sets up a slideshow from a simple wiki page, which you can use to learn the basics of how easily the JQuery55 slideshow system in Tiki works.

1.4. Useful New Technology Configurations

- [Together](#) <- "Write Together"
- [Post-it Sticky Note](#)

Show on admin login

Close Back Next

Useful New Technology Configurations

Check out this set of useful configurations that involve using some new technology for your site.

Profiles Wizard - steps:

- Tiki Setup
- Featured Site Configurations
- Useful Micro Configurations
- Useful Changes in Display Mode
- Useful New Technology Configurations
- Useful Administration Configurations
- Demo of Commonly Used Configurations
- Demo of Interesting Use Cases Configurations
- Demo of More Advanced Configurations
- Demo of Highly Specialized Configurations
- Configuration Profiles Wizard Completed!

Profiles:

Write Together (apply profile now)
This profile adds a simple wiki page on a side module (using the Module menupage), showing the button to start co-writing with TogetherJS.

Post-it Sticky Note (apply profile now)
This profile allows to display a sticky note (a "post-it") in your tiki site.

1.5. Useful Administration Configurations

- [Debug_Mode_Enabled/Debug_Mode_Disabled](#)

Show on admin login

Close Back Next

Useful Administration Configurations

Check out some useful changes in the configuration for site administrators to ease debugging.

Profiles Wizard - steps:

- Tiki Setup
- Featured Site Configurations
- Useful Micro Configurations
- Useful Changes in Display Mode
- Useful New Technology Configurations
- Useful Administration Configurations
- Demo of Commonly Used Configurations
- Demo of Interesting Use Cases Configurations
- Demo of More Advanced Configurations
- Demo of Highly Specialized Configurations
- Configuration Profiles Wizard Completed!

Profiles:

Debug Mode Enabled (apply profile now)
Debug Mode Disabled (apply profile now)
Profile Debug_Mode_Enabled will help you detect potential errors and warnings which are hidden otherwise. Once applied, you might like to apply the opposite profile: Debug_Mode_Disabled, if not changing the appropriate settings by hand.

Demo of Commonly Used Configurations

Profiles Wizard - steps:

- Tiki Setup
- Featured Site Configurations
- Useful Micro Configurations
- Useful Changes in Display Mode
- Useful New Technology Configurations
- Useful Administration Configurations
- Demo of Commonly Used Configurations**
- Demo of Interesting Use Cases
- Demo of More Advanced Configurations
- Demo of Highly Specialized Configurations
- Configuration Profiles Wizard Completed!

Check out some commonly used configurations in Tiki sites.

Profiles:

User & Registration Tracker (apply profile now)

This profile allows you to request more details in the registration process or in the User Wizard, as well as to provide more custom information to your users.

Click to expand

Custom Contact Form (apply profile now)

This profile eases the task to create a custom contact form adapted to the specific case of that site.

Click to expand

Dynamic Items List (apply profile now)

This profile creates two linked trackers. One that allow pre-selecting the items in a drop down list based on the items in a previous drop down field. And a second tracker that holds the options displayed in the drop down fields.

Click to expand

Sortable Tables (apply profile now)

This profile creates a few examples of tables with data that can be sorted and filtered interactively in real time, using the JQuery Sortable Tables feature.

1.7. Demo of Interesting Use Cases

- [Bug_Tracker](#)
- [Time_Sheet](#)
- [Tracker_as_Calendar_12](#)
(maybe after renaming/cloning it to indicate 12 or no number)
- [Voting_System](#)

Show on admin login

Close Back Next

Demo of Interesting Use Cases

Profiles Wizard - steps:

- Tiki Setup
- Featured Site Configurations
- Useful Micro Configurations
- Useful Changes in Display Mode
- Useful New Technology Configurations
- Useful Administration Configurations
- Demo of Commonly Used Configurations
- Demo of Interesting Use Cases**
- Demo of More Advanced Configurations
- Demo of Highly Specialized Configurations
- Configuration Profiles Wizard Completed!

Each of these profiles create a working instance of some features, such as trackers and wiki pages customized for specific purposes, for example.

Warning

They are not to be initially applied in production environments since they cannot be easily reverted and changes and new objects in your site are created for real

Profiles:

Bug Tracker (apply profile now)

This profile allows you to see a tracker in action with some demo data, and a custom interface in a wiki page to add new items, as well as having them listed for you below.

Click to expand

Timesheet (apply profile now)

This profile allows recording time spent on projects. It creates two trackers: one to hold the time spent, and the other with the project names.

Click to expand

Tracker as Calendar (apply profile now)

This profile creates a tracker with some demo data and wiki interface that will be used to display and manage a calendar of events in a fancy visual way.

Click to expand

Voting System (apply profile now)

This profile sets up a Voting system in which only members of a group will be able to vote. It creates a tracker, 2 groups of users, one user in each group and a custom wiki page as interface to vote.

Click to expand

Click to expand

1.8. Demo of Other Interesting Use Cases

(since Tiki 13.1+ & 12.3+)

- [Structured Master Documents](#)
- [Consensus Forums](#)
- [Barter_Market](#)
- [Revision Approval \(ISO9001\)](#) (since Tiki 14.0)

Demo of Other Interesting Use Cases

Each of these profiles create a working instance of some features, such as wiki structures, forums, trackers and wiki pages, customized for specific purposes.

Warning
They are not to be initially applied in production environments since they cannot be easily reverted and changes and new objects in your site are created for real

Profiles:

Structured Master Documents (apply profile now)
This profile will get you started with Wiki Structures, containing multiple wiki pages with a hierarchical order, like master documents from office suites, and more.

Consensus Forums (apply profile now)
This profile sets up the configuration needed to facilitate forums that help their users to seek consensus on the discussion topics held.

Barter Market (apply profile now)
This profile creates three trackers with some demo data to showcase a basic setup for a barter market of linked offers and wants of goods, services and knowledge.

Click to expand

1.9. Demo of More Advanced Configurations

- [Shopping_Cart](#)
- [Easy_GeoBlog](#)

Demo of More Advanced Configurations

Check out these more advanced configurations that demonstrate some other Tiki Features that you might be interested in for your site.

Warning
They are not to be initially applied in production environments since they cannot be easily reverted and changes and new objects in your site are created for real

Profiles:

Shopping Cart (apply profile now)
This profile provides a Shopping Cart and the corresponding basic payment system. It currently uses the PayPal shopping cart rather than the built in Tiki.

Easy GeoBlog (apply profile now)
This profile demonstrates the geolocation of Blog posts, in conjunction with other associated features

Click to expand

1.10. Highly Specialized Configurations

They are also demo profiles, but highly customized for very specialized applications.

- [Cartograf](#)
- [R_demo](#)
- [R_Heatmaps](#)

Show on admin login

Close Back Next

Demo of Highly Specialized Configurations

Profiles Wizard - steps:

- Tiki Setup
- Featured Site Configurations
- Useful Micro Configurations
- Useful Changes in Display Mode
- Useful New Technology Configurations
- Useful Administration Configurations
- Demo of Commonly Used Configurations
- Demo of Interesting Use Cases
- Demo of More Advanced Configurations
- Demo of Highly Specialized Configurations**
- Configuration Profiles Wizard Completed!

Some profiles are highly customized for very specialized use cases, and they are listed in this special category.

Warning

These configuration profiles **require extra software** to be installed in your server to function as expected. See details in the instructions page shown in your site once each profile is applied.

Profiles:

CartoGraf (apply profile now)
 CartoGraf is an interactive web-based mapping application to enhance learning in history and geography classes in high schools. CartoGraf is a great example of how to use profiles in a general purpose app (Tiki) to make a very specific application.

R demo (apply profile now)
 This profile demonstrates common uses of R language for statistics to produce advanced and/or interactive graphs and reports in web 2.0 pages.

R Heatmaps (apply profile now)
 This profile adds a web interface for an R package called EasyHeatMap (link to package provided in the instructions page once the profile is applied). This R package allows the creation and edition of HeatMap graphics (as used in Bioinformatics).
