

Project Management

Tiki doesn't have a *checkbox* to activate a project management feature **but** can be used for wiki-based project management using a combination of [tracker](#), [wiki](#), [categories](#) and [watch](#). A [tutorial](#) would be nice. Please see [dev:project management](#) for more ideas.

In the video, you see "How to plan a camping trip". Now, imagine hundreds of small teams coordinating via the wiki.

Starting in [Tiki5](#), [group watches](#) can be added to [Categories](#).
