Semantic search

New in [Tiki27](#)

Usable via [PluginSemanticSearch](#)

This is collaboration between [Textualization](#) and [EvoluData](#).

Initial commit:

- https://gitlab.com/tikiwiki/tiki/-/merge_requests/4460

The following libs were developed for this:

- https://packagist.org/packages/textualization/semantic-search
  - https://packagist.org/packages/textualization/sentence-transphormers
    - https://packagist.org/packages/textualization/ropherta
      - https://packagist.org/packages/textualization/ropherta-tokenizer
        - https://packagist.org/packages/textualization/sentencepiece
