

# Content Segmentation. (proposal)

## Feature (for end users)

- overview (what and why)
- related links
- instruction (how)
- examples
- faq

Faq gets flushed back into instruction periodically?

## Feature Admin (for configuration options and maintenance)

- options overview (what and why)
- related links
- instruction (how)
- examples
- faq

## Feature Dev (for developers)

- development status (what, and when)
- related links (include developer userpages)
- requirements and specifications (exactly how)
- code
- faq/bugs
